## Consent Form for Publication of Student Work and Photographs

Dear Parents

Throughout the year photographs of students at work, at play and student work samples will be posted on our website. Additionally our Newsletter is also posted on our Website. We require Parents to consent or non-consent for publication.

Kind regards

Ross Davis

## Consent Form for Headlice Inspection

Throughout the year, the school will be arranging head lice inspections of students.

The management of head lice works best when all children are involved in our screening program.

**The school is aware that this can be a sensitive issue and is committed to maintaining student confidentiality and avoiding stigmatisation.**

**Before any inspections are conducted staff will explain to all students what is being done and why, and it will be emphasised to students that the presence of head lice in their hair does not mean that their hair is less clean or well-kept than anyone else's. It will also be pointed out that head lice can be itchy and annoying and if you know you have got them, you can do something about it.**

Trained volunteers from our school will conduct the inspection of students. The person conducting the inspections will physically search through each student's hair to see if any lice or eggs are present.

**In cases where head lice are found, the person inspecting the student will inform the student's class teacher and the principal. The school will send a written notice home with the child and provide parents with comprehensive advice about the use of safe treatment practices which do not place children's health at risk.**

***Please note that the law requires that where a child has head lice, that child should not return to school until appropriate treatment has commenced.***

I hereby give my consent for the below-named children to participate in the school's head lice inspection program.
